Headway offer advice and support to all those living or supporting someone with an acquired brain injury. We are part of a national network of Headway groups providing support in the community.

We hold two regular meetings each month providing members the opportunity to meet, socialise and take an active part in the support of others. We promote a range of activities to meet the needs of our members.

In addition to our regular meetings we organise excursion days out for members.

We welcome adults of all ages to our group.
